

In the Specification:

Page 11

Please replace the paragraph beginning on line 9 and ending on line 11 with the following paragraph:

al The bearing sleeve 5 is pressed into the second connecting rod eye 20. Together with the crank pin 3, the inner face of the bearing element 5 forms a pin bearing 26. The connecting rod eye 20 and the bearing element 5 each define an alignment mark 36 and 37, respectively.
